Rose garden
Introduction

Welcome to Southern Roses Catalogue

As we publish this rose catalogue, we Geert and Wilma van de Laak-Verhaegh at Southern Roses Ltd are both looking forward to another rose season with a few recent exciting changes and developments.

We are pleased to announce that Stijn Vermazeren has become our associate. He is passionate about the horticultural industry and has started growing standard roses besides being involved growing bush roses. Stijn studied horticulture and arable cultivation, profile crop and cultivation management at the HAS in The Netherlands. He has been working as production assistant on a few nurseries before he decided living and working in New Zealand. He is a great replenishment to our business and we are very pleased to introduce him as our colleague to you. We are very fortunate to have Stijn in our team!

Geert van de Laak will remain managing director and his wife Wilma remains administrative, sales and marketing director. Nevertheless both of us will be heavily physically involved growing roses and peonies.

Unique to Southern Roses Ltd
Southern Roses Ltd is the only rose nursery in New Zealand growing roses on seedling rootstocks, like in Europe. Our roses are compact which accomplishes less break off from branches. The variety seedling rootstock used on our nursery effectuate rich and deep colour of blooms and leaves. Roses grown on seedlings are known as roses with a long life span.

Mission Statement
We provide a comprehensive range of different varieties of bare-rooted and potted roses, as well as potted peonies that meets and exceeds the customer’s expectations and requirements.

Research and Development
The extensive roses and peonies are continuously being observed to improve the quality up to the highest level. Plants without giving us the expected quality will be cancelled from the list. We keep you informed in regards of the standard roses cultivation.

Objective
We like to share our knowledge of our profession with our customers. We will maintain a generous attitude in treating all customers with respect, honesty, integrity and professional friendly service.

Peonies

Paeonia Lactiflora or commonly named Peony roses are frequently seen in bouquets as cut flowers. Southern Roses Ltd offers potted peony roses to the New Zealand market. We have several varieties available from our nursery, like Coral Sunset, Duchesse de Nemours, Kansas and Sarah Bernhardt. Expanding varieties annually. During Autumn peony tubers are lifted and carefully divided before they are potted in 4.7 Ltr pots. The coloured label represents the plant very well. These plants are available from Autumn until end November.
